Diploma in Business Administration

Skills

- Front-End Technologies: HTML, CSS, Javascript, ReactJS, VueJS
- Backend Technologies: NodeJS, ExpressJS, RESTful APIs
- Database: MySQL, MongoDB
- Operating System: Windows, macOS, Linux
- Responsive Design
- Agile Methodologies: Scrum and Software Testing
- Soft skills: Communication, Problem Solving, Adaptability, Time Management, Teamwork

Projects

- **Youtube Clone (ReactJS/TailwindCSS/Rapid API)**
📺 This fully responsive web application faithfully replicates the core features of YouTube, allowing users to explore a wide range of videos, search for specific content, and enjoy seamless playback across devices.
🚀 Building this project was an incredible journey that sharpened my skills in frontend development, API integration, and responsive design.
- **Chatting AI (ReactJS/RestAPIs/NodeJS/ExpressJS/GPT 3.5/Teamwork)**
💻 Chatify AI allows users in getting instant responses to their questions and inquiries. It's like chatting with a knowledgeable friend, available 24/7!
🌐 Built using cutting-edge technologies like React and Express, Chatify AI offers an intuitive chat experience. Whether you're seeking information, advice, or just want to chat, Chatify AI is here to help!
- **Music Player App (HTML/CSS/Javascript)**
🎵 This project provides a seamless music playback experience, all powered by the synergy of modern web technologies.
- **Weather App (HTML/CSS/Javascript/NodeJS/Open Weather Map)**
☁️ Stay informed with my Weather App, integrating real-time weather data using Weather API.
✅ This App offers instant access to accurate Weather forecasts for any location.
