- Operating System: Windows, macOS, Linux
- Web Design: Figma, WordPress, Adobe Creative Suite
- Agile Methodologies: Jest, Scrum and Software Testing
- Soft skills: Communication, Problem Solving, Adaptability, Time Management, Teamwork

---

## Projects

- **Youtube Clone (ReactJS/TailwindCSS/Rapid API)**  
 This fully responsive web application faithfully replicates the core features of YouTube, allowing users to explore a wide range of videos, search for specific content, and enjoy seamless playback across devices.  
 Building this project was an incredible journey that sharpened my skills in frontend development, API integration, and responsive design.
- **Chattify AI (ReactJS/RestAPIs/NodeJS/ExpressJS/GPT 3.5/Teamwork)**  
 Chatify AI allows users in getting instant responses to their questions and inquiries. It's like chatting with a knowledgeable friend, available 24/7!  
 Built using cutting-edge technologies like React and Express, Chatify AI offers an intuitive chat experience. Whether you're seeking information, advice, or just want to chat, Chatify AI is here to help!
- **Pomodoro App (NextJS/TypeScript/TailwindCSS/Jest/NextAuth/Stripe)**  
 The Pomodoro full-stack app is a productivity tool designed to help users manage their time more effectively.  
 This project was a collaborative effort undertaken by a team of three individuals, including myself and two other teammates. Overall, this app serves as a testament to our teamwork, collaboration and dedication to delivering a high-quality product to help users improve their productivity.

- **Music Player App (HTML/CSS/Javascript)**

🎵 This project provides a seamless music playback experience, all powered by the synergy of modern web technologies.

- **Weather App (HTML/CSS/Javascript/NodeJS/Open Weather Map)**

☁️ Stay informed with my Weather App, integrating real-time weather data using Weather API.

✓ This App offers instant access to accurate Weather forecasts for any location.
